

The ARCHIVES for WOMEN in MEDICINE

The Archives for Women in Medicine at Harvard Medical School's Countway Library is made possible by the generous support of our donors.

While publications tell of the scientific accomplishments of women in medicine and science, the story behind those accomplishments - of the relationships, experiences, and struggles that pushed and inspired these pioneers - can only be illuminated through their personal and professional records.

The Archives for Women in Medicine collections provide a rich resource for current and future scholarship in medicine and the history of medicine, and will inspire future generations of women to be leaders in medicine.
